Sir:

This is in response to an Office Action dated
December 3, 2003, having a one-month term for reply
expiring on January 3, 2004, in which a one-month

extension of time is respectfully requested herein,
bringing the term for reply expiring on February 3, 2004.

Applicants hereby elect to pursue the Group I Claims
(Claims 1-26, and 49) drawn to foamed cellular particles,
classified in class 521, subclass 50 with traverse and
without prejudice of Applicants' rights to file a
divisional application. It would appear that a meaningful
search performed directed toward any one of the
embodiments of Groups I, II, and III would of necessity
uncover art relevant to the other embodiments.
Reconsideration of the restriction requirement and
withdrawal of the same are respectfully requested.

The inventorship of the elected claims of Group I
remain the same as originally submitted.

The request for the one-month extension of term for
reply to this Office Action, along with the required fee
in the amount of \$110.00, which fee is to be debited to
Account No. 501679 is enclosed.

Respectfully submitted,
